

Ref. No. 09/0027/016

Vodňany, 14.1.2016

Dean's decision No. 4/2016 **Publicity and website of the FFPW USB**

Mr. Nebeský ensures, arranges and is responsible for the promotion on the basis of the approved annual plan by the Dean's Collegium (e.g. advertisements in the press, participation in exhibitions, trade fairs, and promotion of study and services of the FFPW USB in the media).

Ms. Kovaříková is responsible for activities coordination and checking the accuracy of the content of the website of the FFPW USB (the "Website"). A specific list of personnel responsible for the partial content and topicality of information of the various parts of the website of the FFPW USB (CZ, GB) is attached (Annex No. 1). Each responsible worker deals directly with Mr. Vlček, Čapek or Rodina when submitting data and editing pages. Ms. Kovaříková will be also informed about these changes when necessary. Faculty staff sends all reports on the website of the FFPW USB to Ms. Kovaříková. News is compulsory required **in Czech and English version**. The news must be accompanied by photographs or other illustrations. Topicality and accuracy of the website will be controlled by the Dean of the Faculty. Individual responsible staff will be sanctioned by reducing or removing personal rewards in case of identified serious deficiencies.

The exceptions can be decided by the Dean.

This decision cancels the Dean's decision No. 19/2015.

This decision comes into effect on 14.1.2016.

Prof. Dipl.-Ing. Otomar Linhart, DSc.
Dean of FFPW USB

Annex:

Annex No. 1 - List of responsible staff (CZ, GB website versions)

List of responsible staff (CS, GB website versions)

Home page and topicality of published information (PR texts, Faculty Structure) – Linhart

We are a young active Central European scientific faculty that creates a self-sustaining economic, social, dynamic and nature-friendly Europe.

Prof. Miroslav Čížek, B.Sc., D.Sc., Dean of the faculty

1 Youth and productivity

150
employees

50
doctors/students

230
other students

2 European Investments

European investments allow us to create cutting-edge basic and applied science

3 The heart of Europe

Location of the Czech Republic close to major communication routes to major European cities and countries

4 International scientific reputation

5 International environment

>1/2

More than 1/2 of Ph.D. students carry heavy abroad

6 Study in family atmosphere of South Bohemia

Our focus and results of our research

We offer applicants to study Aquaculture and Protection of Waters in English in the form of Master's and Doctoral study

Cooperation with European and worldwide partners on 7 international projects

Patents, licenses, technologies, trademarks, business activity

We publish about 100 papers in prestigious scientific journals each year

Faculty structure

Research Institute of Fish Culture and Hydrobiology (IFVCH)

- Vodňany

Institute of Aquaculture and Protection of Waters (IAPW)

- České Budějovice

Institute of complex systems (ICS)

- Havlíčkův

International Environment, Educational, Advisory and Information Center of Water Protection (IEEAWP)

- Vodňany

South Bohemian Research Center of Aquaculture and Biodiversity of Hydroecosystems (SBAHCA)

- Vodňany

1 Internationally recognized Institute helping to create global models of fish culture and aquaculture in various parts of the world of the European Union.

2 Institute awarded top applied research of Ph.D. students and students specialisation in the areas of fish farming, fisheries, fish and quality hydrobiology and water protection. Faculty sells quality fish products here.

3 Students and students as pioneer, copy, innovators and general digital processing in the modern world. They cooperate with European fisheries institutions, have a need for staff, zones and processes as part of projects.

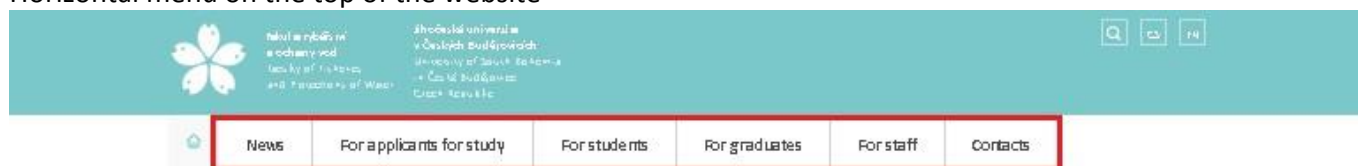

4 An informative center of the faculty with a career advisor and management studies focused on international students serving as a school, training, learning, workshops, provision and management of projects.

5 From 2016 covers multidisciplinary research programs in the IAPW, based on quality of fish, biology, conservation and aquaculture, sustainable aquaculture, biology and conservation of crustaceans, water quality, crustaceans and management of aquaculture projects.
