

## Development of the research oriented study programmes at the FFPW USB

<b>Project name</b>	<b>Development of the research oriented study programmes at the FFPW USB</b>
<b>Registration number</b>	CZ.02.2.69/0.0/0.0/16_018/0002616
<b>Realization date</b>	6/2017 – 5/2022
<b>Recipient</b>	University of South Bohemia in České Budějovice
<b>Grant program</b>	OP - EU Operational Programme
<b>Responsible solver</b>	Assoc. Prof. Dipl.-Ing. Vladimír Žlábek, Ph.D.

### PROJECT ANNOTATION

The main goal is the creation and development of research-oriented study programs by the university strategy, the involvement of experts from practice and abroad in creating these programs, support for foreign internships of academics and researchers to use examples of good practice in the preparation and development of research-oriented study programs.

### PROJECT GOALS

The main objective of the project is to innovate / modernize one research field and create a new field in line with the university strategy and in line with current and future trends in the field of research and development of aquaculture, water protection, fisheries etc. - Re-accreditation of the Fisheries study the Doctoral Study Program of Zootechnics and the accreditation of the study area Protection of Aquatic Ecosystems within the Doctoral Study Program Ecology and Environmental Protection. The aim of the project is to make this innovation both qualitatively and in terms of content beyond the local context and therefore it is necessary to implement the innovation tax in English as well. Another aim is to involve practitioners and foreign experts in the creation of these degree programs. This will in particular be the transfer of the requirements of practice to the profile of the graduate of the innovated study so that the student is as desired and practicable on the labor market. Project internships will support the internships of academics and researchers to share knowledge of good practice in order to efficiently and meaningfully implement knowledge into innovative curricula. More in the optional annex and in the document Presentation of the project and also in the annex of the project application Description of the modifications of the study programs.
