

Dear Colleagues,

We would like to draw your attention to the opportunity to visit one of the partner universities within the KreativEU Alliance.

Within the framework of the project, it is possible to undertake activities such as **j**ob shadowing, teaching assignments, training courses, working or preparatory visits, staff meetings, or participation in conferences and other professional events. Funding for these mobilities is provided by the project, and activities may be carried out on an ongoing basis **until the end of 2026**.

More detailed information about mobility opportunities and partner institutions can be found [here](#).

If you are interested, please contact:
